Coronavirus precautions at Welbeck Health 24/3/20

The current government advice is changing rapidly. We are of course monitoring the situation closely in line with guidance from our professional bodies.

We wanted to reassure you about the measures we are taking:

- We are cycling in
- We wash our hands thoroughly before touching you
- We are asymptomatic
- We are using alcohol wipes to clean door handles, card machine etc.
- We operate a 1 in 1 out system like your GP surgery is currently doing so that physical distancing is maintained in the waiting area
- We are using single use paper towel

What we would recommend you do:

- Drive, cycle, walk or a combination of these
- Wash your hands in the bathroom before your session
- Use Apple pay/contactless payment if possible

We will keep you abreast of all changes via our [newsletter](#), [Facebook](#) and [IG](#).

The Welbeck Health Team
